

Antron® FiberEffects™ nylon | Product Sheet

Inspire. Dream. Achieve.

Can carpet be exciting? It can if it includes Antron® FiberEffects™ fibers. With this special collection of accent fibers that add depth and texture to the floor, you can dare to dream. Now you can let your imagination go – no constraints, no limits – and deliver designs that are a cut above.

Antron® FiberEffects™ fibers don't compromise on performance and can provide a cost-effective alternative to authentic wool and silk. With these tools in your toolbox you can create uniquely memorable combinations for inspiring interiors – the possibilities are endless.

Need a special look? Look no further.

Offering virtually unlimited styling options, the specialized Antron® FiberEffects™ fibers are inspired by the look and feel of materials found in nature. They include:

Antron® Merino nylon

delivers a rich, saturated color and subdued luster that simulates the look of wool carpets

Antron® Soie nylon

offers a high-end look, with a soft, elegant sheen inspired by natural silk

Antron® Glimmer nylon

provides a brilliant metallic luster to accent carpets

Antron® Primers™ nylon

features a pigmented acid dyeable fiber, available in seven colors, offering an expanded range of flexibility when creating multicolored pieced dyed carpets

In combination with other Antron® fibers, these styling yarns help you create traditional or modern designs, without sacrificing performance.

Benefits

- Enables unique designs through the exceptional styling flexibility of beautiful accent fibers
- Extends your design options with a cost-effective alternative to natural wool and silk
- Resistant to soiling, stains, matting and crushing, thanks to Type 6,6 nylon polymer
- Provides an environmentally sustainable choice, as certified by the Environmentally Preferred Product (EPP) designation

Reach your peak performance

With the highest fiber performance standards for carpet durability in the industry, no one is harder on carpets than INVISTA. Before a carpet can be designated with the Antron® brand, it must first pass a rigorous 14-point laboratory evaluation certifying that it meets the Antron® Brand Performance Standard.

In addition, Antron® FiberEffects™ fibers have all the benefits of Type 6,6 nylon, a specially engineered polymer for outstanding carpet performance, plus additional benefits from DuraTech® soil resistance treatment, a one-time application that doesn't wash or walk off – delivering the long-term protection you want. With Environmentally Preferred Product (EPP) designation, Antron® FiberEffects™ fibers are the whole package - there is no need to compromise performance and sustainability for unsurpassed style – you can have it all.

Looking for beauty and simplicity? With Antron® YarnEffects™ yarns, the work is done for you! These specially designed yarn bundles deliver ready-to-tuft combinations, offering easily customizable, stunning design choices for your interior. Currently available in 10 combinations, Antron® YarnEffects™ yarns utilize special groupings of Antron® yarn dyed fibers, including Antron® FiberEffects™ yarns, Antron® Legacy™ nylon and Antron® Brilliance™ nylon, enabling you to create any look you want for your carpet, with ease.
